# We Own the Land

**H & H Outfitters**, owned and operated by Alex and Zeke Hayes, has spent the last 17 years exceeding their client's expectations and developing a reputation as one of the finest in the business.

Cordoba Province offers the best dove shooting in the world. The mild climate, extensive agriculture, and perfect roosting conditions produce an ever-increasing population of doves. H & H Outfitters, located in northern Cordoba, provides the finest dove shooting in Argentina.

**H Outfitters** own and control over 20,000 acres of the best land in heart of the prime roosting areas in Argentina. The roosting ground heavily wooded area with native trees called Piquillin, frequently sed by natural streams, producing an ideal habitat for the reproduction doves. Vast and fertile valleys that furnish immense quantities of

grain surround these refuges. In addition, Alex and Zeke plant crops exclusively for doves on their land and use no-till methods which provide consistent and unlimited amounts of food. By practicing these game management techniques, we are the only Outfitter in the area that offers excellent shooting throughout the entire year.

## World Class Service

A typical shooting day with H & H Outfitters starts after a sumptuous breakfast, with departure to the fields by 8 AM. The shooting fields at each lodge are carefully rotated and rested to assure maximum bird numbers. The driving distance to the shooting fields ranges between 15 and 50 minutes. We provide our new 15 passenger vans with air conditioning, refreshments and two-way radios. Each client shoots with their own experienced professional bird boy, who will provide shells, act as a loader, retrieve downed birds and keep cool drinks at the ready. Shooting continues until noon, when the group gathers in a shady grove of trees for a traditional Argentine asado (barbecue) complemented with salads, gourmet desserts and fantastic wines. After lunch and an optional siesta, the shoot continues until approximately 6 PM.

Upon returning to the lodge, relax with drinks and party hors d'oeuvres while preparing for dinner. Each lodge has professional massage therapists on staff to help you unwind and relax at the end of the day.

## Action for all Levels

# El Colibrí

**El Colibri** is member of the exclusive 'Relais & Châteaux' group of hotels and is a small luxury country hotel just 10 minutes off the road to the large town of Jesús Maria. The brief journey off the road to El Colibri takes you past the Jesuit mission of Santa Catalina, one of the province's principal attractions (other than the dove shooting of course), and it's a short drive from the La Porteñita that can be seen on the distant horizon. All of our shooting facilities are but minutes away. El Colibri has been developed as a whole integrated property from scratch breeding its own organic beef and chickens and growing most of its own vegetables and fruit. The resort has several Criollo horses for guests to ride along ten kilometers of state trails, and there are plenty of excellent mountain views as well. However if you just want a relaxing time between shooting sessions, the spa might be the only other option you need. There are nine super luxury en-suite rooms including the fabulous presidential El Colibri Suite which would usually be the domain of the group organizer on your shooting trip. But honestly all the rooms at El Colibri are special, but it is the superb service, incredible meals by our chefs and the fine wines that make El Colibri the choice of those who want the best. H&H Outfitters provides the hunting services and Trek Safaris will arrange the travel to this most unique property upgrade.
